Subject: Keystone Center Independent Science Panels on Pebble

Dear Pebble Stakeholders and Interested Citizens,

I will be in Anchorage and southwest Alaska the week of July 18-25 to answer questions about the Keystone Center's independent science panels. I welcome an opportunity to talk with small or large groups about the panels while I am there.

If you can arrange a gathering of people to talk about the panel process, I will work with you to find a suitable time to meet. Right now my schedule is fairly flexible.

Please contact me at your earliest convenience if this sounds of interest. I look forward to meeting with you.

Regards,

Todd Bryan
